United Way of Dane County's work positively impacts generations.

Our partnerships and collaborations address root causes and transform lives through our community's Agenda for Change in focus areas of Education, Financial Stability and Health. Donors and volunteers recognized that creating our own endowment—essentially a “savings account” to be an additional funding source—would be critical to serving the entire community for the long-term while also paying tribute to loyal partners. If you've already included United Way Foundation in your estate plans, thank you and please let us know. If you'd like to learn more creating a named fund in our Foundation or planning for other gifts, we would be honored to work with you.
