The Power of Many. Working for All.

Make a Gift to Support Community Well-Being

For more than 100 years, United Way of Dane County has evolved to meet the changing needs of our community. And, as we launch into the next century, we're innovating forward with our new **Plan for Community Well-Being!** This vision for a brighter future focuses on increasing family well-being so that all families in Dane County lead healthy, thriving and secure lives – making our entire community stronger.

This plan, built with our community, for our community, includes these strategic goals:

Early Childhood – Build family well-being by intentionally and simultaneously working with children under five and the adults in their lives together.

Education – All students succeed academically, and graduate high school prepared for higher education, career and community.

Income – More people are on pathways out of poverty.

Health – A Dane County absent of racial health disparities.

At United Way of Dane County, we know that the well-being of our children and families directly impacts the overall health of our community. And the only way we can overcome these barriers is by working together towards collective impact.

While Dane County remains a top place to live, raise a family and retire, that's not the case for many of our neighbors.

10.8% of our population lives in poverty (58,000+):
which would fill 3/4 of seats at Camp Randall.

Only 42.9% of third grade students are reading at grade level:
which would fill The Sylvee with kids who are reading at or below basic levels.

By working collaboratively with our network of local nonprofits, businesses, community leaders, donors, volunteers and families we'll address big-picture issues that no one individual or organization can solve alone.
